# **Description**

The website offers a basic form to create resumes which can be later downloaded in latex or pdf format.

The resumes can also be edited later.

### **Key Features**

- A basic form for Resume Details.
- Option to download files later as pdf or latex.
- Option to Sign in to save your work and edit them later.
- Three Authentication types
  - Basic authentication with username, email and password
  - Authentication with third party sites
    - Google
    - Office 365 (Using IITG credentials)
- A dedicated Works page for downloading and editing your resumes later.

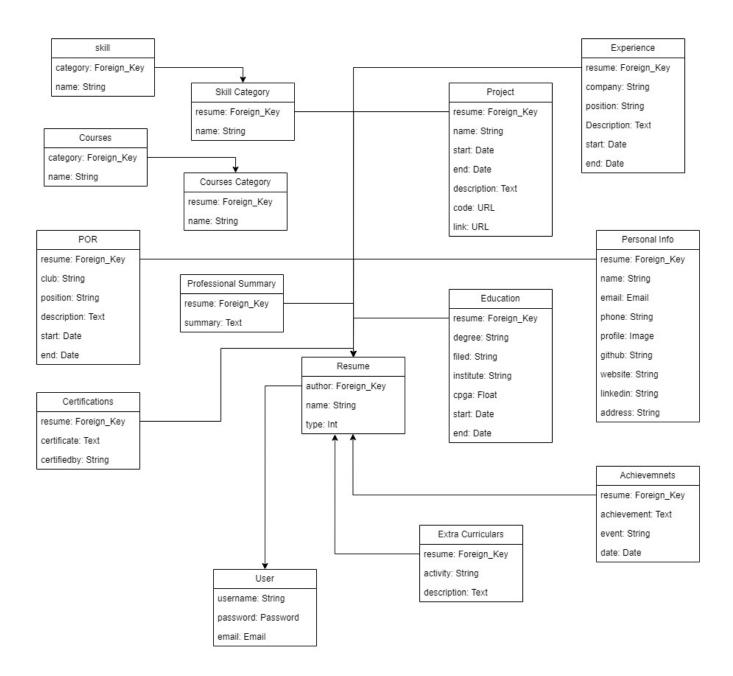

### **Tech Stack**

- · Frontend: HTML, CSS, Bootstrap, Javascript
- Backend: Django (+ allauth, crispy\_forms, pillow, Cheetah3 and other python libraries), SQLite(inbuilt in django)
- · Latex: pdflatex, texlive
